

IT'S NOT TOO LATE TO VACCINATE!

*Everyone is
encouraged to get
the H1N1 vaccine.*

Millions of people have already safely received the H1N1 flu vaccine.

Despite the decline in the number of flu cases, flu is unpredictable and we may see additional waves of illness.

Flu activity typically peaks in February - it's not too late to get vaccinated!

Free H1N1 flu shots available daily at Fairfax County Health Department clinics.

**For H1N1 Clinic Hours, visit
